Soapstone Prairie is extraordinary with more than 28 sq. miles of wide-open vistas, nearly pristine grasslands, miles of trails and world-renowned cultural resources. Bison were introduced to the Prairie in 2016. In 2018, Baird’s Sparrow confirmed to be breeding at Soapstone, the first ever record for this species in Colorado.

Directions – Drive north on I-25 from Fort Collins to exit 288 for Buckeye Rd. Drive west almost 6 miles. After Rawhide Energy Plant, turn north on CR 15 for two miles

Horsetooth Mountain Open Space

This scenic 2,711-acre park (which includes Culver, Soderberg, and Hughey Open Spaces) varies in elevation from 5,430 to 7,255 feet. Features include foothill grasslands, ponderosa pine forests, rock outcrops and riparian habitat.

Directions – From College Ave., drive west on Harmony Rd. which becomes CR 38E. Watch for parking area on right after passing Horsetooth Reservoir, about 6 miles from College Ave.

Pawnee National Grasslands

Pawnee National Grasslands mostly consist of shortgrass prairie habitat. The Crow Valley Campground also has large deciduous and coniferous trees that attract migrant songbirds in the spring and fall.

Directions – Take Highway 14 east from Fort Collins for 44 miles to Briggsdale. Turn left on County Road 77. The entrance to the campground is a short distance on the left side of the road.

City Park/Grandview Cemetery

Grandview Cemetery has large spruce and fir trees that host high-elevation bird species. During migration and winter, Sheldon Lake in City Park attracts numerous waterfowl and gulls.

Directions — From College Ave, drive west on Mountain Ave, past Shields Ave. To access City Park, turn south on Jackson Ave, to Oak Ave. To access Grandview Cemetery, continue straight on Mountain Ave, until it ends at the cemetery (a few blocks past Jackson Ave.)

Look for colorful migrants during the annual spring and fall migrations.

Running Deer Natural Area & Colorado State University Environmental Learning Center

Running Deer Natural Area has wetlands, grasslands and shrubs and can be an excellent spot to find Yellow-headed Blackbirds, Sora, Virginia Rail and American Bittern.

Colorado State University's ELC is a large area that has numerous ponds, wetlands, secondary growth forest, cottonwood trees, and shrubby grasslands. This is an excellent place to observe migrating songbirds in the spring and fall.

Directions — For Running Deer, look for the sign on the south side of Prospect Rd, west of the Colorado Welcome Center. The ELC can also be accessed via the Colorado Welcome Center by hiking southwest less than a mile through Running Deer Natural Area, or via Environmental Dr. on the east end of Drake Rd, where it turns south to become Ziegler.

Dixon Reservoir/Pine Ridge Natural Area

The riparian woodland at the north end of the lake is a favorite migrant trap of Fort Collins' birders.

Directions — From Fort Collins, go west on Prospect Rd, for 3 miles, turn south on Overland Trail, then west on CR 42C for 1 mile. Turn left into driveway for Pine Ridge Natural Area.

Reservoir Ridge Natural Area

This natural area features grasslands and foothill shrubland habitat that suits many shortgrass prairie birds.

Directions — Reservoir Ridge can be accessed from several locations on either Overland Trail or County Road 23 north of the CSU Foothills Campus.

Spring Creek Trail

This is a pleasant walking and biking trail along idyllic Spring Creek. This long riparian habitat winds its way through the heart of Fort Collins.

Directions — The trail begins near Prospect Rd. and Timberline Rd. where it leaves the Poudre River Trail and continues southwest to near Overland Trail and Horsetooth Rd.

Gateway Natural Area

During the winter, this is one of the best local spots to observe American Dippers. In the spring, summer and fall, the site features breeding and migratory birds that inhabit the mixed coniferous forest and riparian habitat.

Directions — Follow US 287 a few miles northwest of Fort Collins; turn west on State Highway 14 for 5 miles. Look for the sign on the right side of the road southwest to near Overland Trail and Horsetooth Rd.
