

**JOB POSTING ANNOUNCEMENT**

**Title:** Private Lands Wildlife Biologist  
**Position Class:** Private Lands Wildlife Biologist I  
**FLSA Status:** Full Time / Exempt / Salary  
**Reports to:** Stewardship Program Manager, Northern Great Plains  
**Direct Reports:** None  
**Location:** Trenton, Nebraska  
**Salary:** \$45,000, with promotion potential  
**Benefits:** This is a full-time position with a comprehensive benefits package (paid time off, 403b retirement plan, health, dental and vision insurance)  
**Start Date:** Oct 2022

**About the Organization:** Bird Conservancy of the Rockies (Bird Conservancy) is a 501-c(3) non-profit headquartered at the Environmental Learning Center at Barr Lake State Park with a satellite office in Fort Collins and fieldwork outposts in the Great Plains Region and Intermountain West. We conserve birds and their habitats through an integrated approach of Science, Education, and Stewardship. Our work radiates from the Rockies to the Great Plains, Mexico, and beyond.

**Position Overview:** We are hiring a Private Lands Wildlife Biologist (biologist) to deliver habitat conservation projects on private lands in the grassland ecosystem of southwestern Nebraska. This position is a partnership between the US Department of Agriculture - Natural Resources Conservation Service (NRCS), Nebraska Game and Parks Commission (NGPC), and Bird Conservancy of the Rockies.

The biologist will work with local partners and private landowners to enhance grassland habitat through the Working Lands for Wildlife –Great Plains Grassland Initiative, particularly managing the woody encroachment of Eastern Red Cedar. In addition, the biologist will help agricultural and cattle producers improve wildlife habitat and achieve their management objectives by developing comprehensive conservation plans, including resource assessments, habitat treatments, developing seed mix recommendations, and coordinate their implementation (e.g. infrastructure for water and fence improvements, reducing invasive grass species, prescribed grazing plans, etc.).

The biologist will work with federal, state, and local natural resource professionals, and will use voluntary, incentive-based funding opportunities (e.g. Farm Bill and NGPC funding) to implement conservation. The biologists will be supervised by Bird Conservancy, NRCS and NGPC and will travel throughout the region using a provided vehicle.

**About the Area:** Southwest Nebraska is nestled within the Great Plains biome. Most of the landscape is comprised of either flat to rolling cropland or steep to rolling grasslands and the economic engine of the area is agriculture. Trenton is a small town of 600 residents and is surrounded by camping, swimming, boating, and fishing opportunities with four reservoirs in the areas including the Swanson Reservoir west of Trenton. Other recreation opportunities include hunting, fishing, bird watching, hiking, etc. Community events such as the Harvest Festival in August and the Hitchcock County Fair bring together members of the community.

### **Essential Job Duties and Responsibilities:**

- Provide technical and programmatic support to enhance, restore or improve the management of wildlife habitat on privately-owned land in partnership with the USDA-Natural Resources Conservation Service (NRCS), Nebraska Game and Parks Commission (NGPC) and their clients (landowners) by leveraging USDA Farm Bill Conservation Programs and relevant state wildlife or habitat programs, with particular emphasis on voluntary removal of Eastern Red Cedar
- Develop and sustain cooperative working relationships with landowners, conservation groups, state fish and wildlife agencies, and other resource professionals (e.g., Cattleman/woman association, conservation districts, local weed and pest districts, etc.).
- Deliver formal trainings and products to landowners and other stakeholders for the purposes of enhancing, restoring, or improving management of wildlife habitat.
- Develop technical proficiency in the principles and practice of wildlife habitat enhancement, restoration, or improved management within agricultural systems on privately-owned land.

### **Other Duties:**

- Collaborate across BCR programmatic teams
- Develop technical proficiency in conservation planning and agency business tools
- Assist partner agency and other collaborators in conducting biological assessments
- Other duties as assigned

### **Knowledge, Skills and Experience required (unless otherwise noted):**

- Bachelor's degree in a conservation related field (e.g. wildlife biology, ecology, human dimensions of natural resources, rangeland ecology, etc.) or four years of equivalent professional experience
- Working knowledge of Farm Bill programs (preference given to these candidates)
- Ability and desire to work with a diversity of people including state, federal, and non-governmental resource professionals, agricultural producers, industry professionals, and other community representatives
- Ability to communicate clearly and effectively (use active listening to build trust and establish rapport) with a variety of landowners and partners
- Motivated self-starter who is comfortable working independently under remote supervision, and highly organized with the ability to manage multiple deadlines
- Practical understanding of habitat restoration, ecology, and land management
- Knowledge of western Nebraska flora and fauna, particularly experience with southwestern Nebraska and grassland plant ID
- Strong written, verbal, and interpersonal communication skills
- Proficient in Microsoft Office, Excel; experience with GIS software is desirable

### **Physical Demands / Work Environment:**

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- Able work in a standard office setting, with considerable sitting, standing, and viewing of computer
- Mid-level stress
- Requires reaching continually throughout the workday (mouse, keyboard, telephone).
- May include lifting up to thirty (30) pounds of project gear on a frequent basis. Proper lifting techniques required
- Able to stand, walk and hike for extended periods of time outside in all weather
- Able to work independently in remote locations where hazardous wildlife and conditions may occur
- Ability to troubleshoot when working solo (flat tires, cattle gates, etc.)

- Requires valid state driver's license and ability to travel throughout the landscape on a regular basis, often to remote locations in inclement weather or adverse conditions

**Material and Equipment Directly Used:**

- Various habitat restoration and enhancement materials (e.g. stock tank ladders, fence markers)
- Standard office equipment (e.g. laptop, printers); PC with MS Office software applications
- Navigate to field sites and record data using GPS, smartphones, tablets, or other technology
- Operate federal vehicles, including cars, trucks, All Terrain Vehicles or Utility Task Vehicles

**Equal Opportunity Employer:**

Bird Conservancy of the Rockies is an equal opportunity employer committed to creating a diverse work environment. All qualified applicants will receive consideration for employment without regard to race, color, religion, gender, gender identity or expression, sexual orientation, national origin, genetics, disability, age, or veteran status.

**COVID-19 Policy:** Bird Conservancy is committed to protecting and enhancing the welfare of its employees during the COVID-19 pandemic. As a condition of employment, all newly hired employees must provide to Bird Conservancy's human resources representative either proof of full vaccination at employment start date or agree in written form to weekly testing until further notice. Any proof of vaccination or weekly test results submitted to Bird Conservancy will remain confidential.

The position will be based in a federal office in Trenton, NE. While COVID-19 safety precautions limit NRCS office capacity and travel (when in effect), the PLWB will have some flexibility to telework from home; when in the federal offices, the biologist will be required to adhere to all safety protocols, including wearing a facial mask and social distancing.

**To Apply:**

Please submit your cover letter, resume and contact information for three references in **ONE document** to [applicants@birdconservancy.org](mailto:applicants@birdconservancy.org) with "Trenton\_PLWB\_YourLastName\_YourFirstName" in the subject line and document file name by Aug 19, 2022. Please include how you learned of the job posting.

**NOTE: This job description is not intended to be an exhaustive list of all duties, responsibilities, or qualifications associated with the job. The employee will be required to follow any other instructions and to perform any other duties requested by their supervisor. Nothing in this job description shall create or is intended to create, or shall be construed to constitute a contract of employment, express or implied. Employees are held accountable for all duties of this job.**
